Vine Idea

"San Diego Wine Excursions"

Vine Idea are wine excursions that visit various wineries throughout San Diego county, with the focus of introducing people to California's newest side of wine country. Each excursion includes a visit to at least two wineries in Escondido Valley, Ramona Valley, and Julian; and they usually include five to six one ounce pours of their most exclusive or award winning wines. For those who would like to book an all day excursion, they must do so months in advance to allow time for booking of transportation and at vineyards. Vine Idea is also able to accommodate private excursion or groups of up to 35, but they recommend the smaller the group the more intimate the experience.
