Trinity Bellwoods Park

"Outdoor Greenery"

Trinity Bellwoods Park has something for everyone. However, the most important feature of the park is the presence of white squirrels. The White squirrel is an albino squirrel that is found amid the trees of the park. There are the eight outdoor tennis courts, as well as the outdoor skating rink, among other things. For the children, there is a playground, as well as a wading pool to entertain them. The pet-owners will not be left disappointed either, for the park has an area known as the dog bowl, which is a leash-free zone. The park is also the site for many cultural events, including live theater & book fairs.
