Gecko's Bar & Tapas

"Chill Out At Gecko's"

Gecko's may not be the hottest bar and restaurant around, but its modest and casual atmosphere still makes it a hit with a younger crowd. The bar has a very warm and inviting feel to it. It specializes in a variety of wines, beers and other intoxications because of which its frequented by the local bar mongers a lot as well. And if you're a sports freak, then this is where you can catch up on you favorite sports too, while enjoying some delectable tapas on offer. Youngsters usually come here for their daily quota of junk food as Gecko's is really famous for its burgers and sandwiches. The interiors are done very intricately with funny murals adorning the walls to retain the youthful and relaxed atmosphere of the place. Come here to enjoy a round of drinks with your friends.
