### Antigone Books

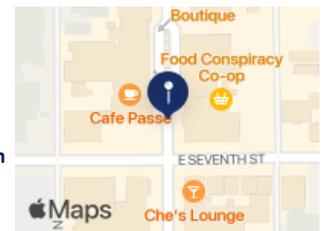

#### "Books by Women Writers"

Situated in the funky but hip environment of Fourth Avenue, this bookstore specializes in books by and for women, inspired by the tradition of the ancient Greek heroine who lent her name to the establishment. Feminist essays, women's studies and lesbian material are represented along with the works of the famous women writers of all ages and nationalities. Recently, the store has expanded to include cards, calendars, jewelry and gifts; but books are still at the core of the business.
