Stratford Picture House

"Stratford's Main Cinema"

Stratford Picture House is a stylish modern cinema with open spaces and natural wood floors, a much lighter feel from some of the more dark and dingy theaters. The bar hosts regular "Art in the Bar" exhibitions of local artists that are always worth a look. Note that admission prices vary.

The Regal Cinema

"Blast From the Past"

The Regal Cinema is not your, regular, run of the mill cinema house. This art deco structure's history dates back to the 1930s and after years of neglect it was extensively restored to its current state in January 2012. Counted as being one of the few historic structures in Evesham, watching a movie here is nothing less than a tryst with heritage. This single screen theater hosts a number of Hollywood movies as well as local movies, with a maximum of four shows in a day. And its programming is not just restricted to blockbuster movies. The theater also hosts a number of concerts, comedy shows and films from the art house for one and all. The theater has a cafe and wine bar where you can relax before or after a movie and sip on the various libations. Make sure you book your tickets in advance to enjoy the latest hits on this historic screen.
