David Winton Bell Gallery

"Mixed media gallery at Brown"

The Bell Gallery is located in the List Art Center, on the Brown University campus and is open to the public. You will find all manner of modern art in this sparse white space. In one month you could see an exhibit by three artists working with photography and texts, an installation about a vanished Russian cosmonaut and photographs depicting a futuristic society of bog-dwellers. All events at the Bell Gallery are free. Include this gallery in a walking tour of the campus.

Prospect Terrace Park

"College Hill Views"

Prospect Park was one of writer H.P. Lovecraft's favorite places to wander. When you arrive, it is not hard to see why he enjoyed it so much. The park sits atop Congdon Street in historic College Hill and it offers one of the best views of downtown Providence. Another highlight here is the statue of Roger Williams, one of the founders of Rhode Island. In fact, his remains lie underneath the statue. Overall, it's a worthwhile stop, especially if you're here when the sun goes down in the West.

India Point Park

"Historic Providence Harbor Park"

India Point Park is located in the Fox Point neighborhood, right outside of bustling College Hill. It is a tranquil oasis with waterfront paths that meander between graceful trees, attracting bikers, joggers, dog-walkers and anyone else who enjoys the outdoors and spectacular views of the harbor. The park holds an important place in American history as it is where Roger Williams landed in 1638. The park's name itself is the product of its historic use as a launch for trade ships heading to the East and West Indies. India Point Park attracts an eclectic crowd with its myriad pleasures, and is often used as a venue for spectacular open-air events like concerts, fireworks shows and festivals.

Tantric Nightclub

"Fun Night Out"

This club located in the neighborhood called Hope just north of College Hill is where clubbing is taken to a more elegant level. Tantric is a sleek, modern spot with Asian inspired elemental decor, with soft bamboo colored tones and a statue of Shiva behind the bar. It seems more boutique bar rather than nightclub because of the martinis served, but its massive dance floor still gives it credibility as a club. If you're in the Hope or Mt. Hope neighborhoods, it definitely merits a visit.

Blackstone Boulevard Walking Path

"Blackstone Beauty"

This path that meanders from Hope Street to Butler Avenue in the affluent neighborhood of Blackstone is a paradise for joggers, hikers, bikers and walkers. The 1.7-mile path runs alongside the boulevard and it's well-manicured from north to south. On weekends and especially during good weather, it tends to be more crowded obviously, but an overall great excursion within city limits.
