Peter Pan

"Great Disco, Young & Beautiful"

Although it is intended as a metaphor, the name Peter Pan comes to mind when you see the club. A small child who never wants to grow up. This is a marvelous disco both because of its design and the people who go there. Peter's (as it is known) is on Riccione's magic hill and attracts a slightly younger crowd than most of the similar clubs in the area. The club has breathtaking dancers, screaming singers and is loads of fun. It is one of the best places to go on the hill.

Prince

"Fun All Year Round"

This disco in Riccione Alta has definitely found the right balance in the sense that there is something for everyone. There are two dance floors, a splendid garden (obviously only open during the summer), a wonderful American bar and a restaurant. The Prince is a nightclub which has a huge variety of entertainment. If you are not put off by the dancers on the stage, then why not find a "cube" and go really wild! A word of warning: the club changes its name every so often, hence the fact that it shares its current name with the famous singer!

Baia Imperiale

"The Splendor of Ancient Rome"

Baia Imperiale is an imperial palace with columns, fountains, two dance floors and loads of music. It is one of the most popular discos on the Riviera, particularly in summer, but it is also filled every weekend during winter. Its futuristic and impressive structure and the beautiful girls to be seen there (as was always the case in imperial villas), the Baia is definitely worth at least one visit during your stay.
