Uptown Theatre

"Uptown Theater In Napa"

Originally a movie palace, downtown Napa's majestic theater was shuttered for a decade before re-opening in 2010 as a concert venue. A local builder, who remembers the Uptown from his youth, expanded the stage and lovingly restored the interior to its art deco origins. Be sure to look up at the murals on the ceiling and take in the small details, like the iron-accented sidelights, that make this theater a distinctive place to catch a national act.

Napa Valley Opera House

"Stage It On!"

Restored in 2003, this magnificent Opera house never knew it would live to see its good old days again. But now, its fate has reversed and restored it stands. Past events have included plays such as I Love You, You're Perfect, Now Change, as well as performances from acclaimed artists like the Indigo Girls. For those who love their funny bone tickled, do not miss the stand-up comedy competition, or better yet compete in it. Making a fool of yourself could not be more fun!
