Grand Théâtre de Québec

"Multi-Use Arts Facility"

Quebec City's modern Grand Théâtre de Québec stands in stark contrast to the venerable beauty of the Palais Montcalm, which it effectively replaced. Built in the mid-1960s, the home of the Quebec Symphony Orchestra and L'Opéra de Québec does have its own charm, however. The Salle Louis-Frédette seats spectators in a classic four-tier arrangement, while the Salle Octave-Crémazie is a more intimate option with fewer seats. With a huge annual program befitting a first-class, multi-use facility, any visitor with an interest in the arts is likely to find himself or herself, enjoying at the Grand.
