Dennis Best Men's Salon

"Best in Town"

This salon near downtown Durham gives great haircuts for men, women, and children, although it caters primarily to men, hence the name. Customers can expect stylists that pay particular attention to detail, complimentary beer or soda, and plenty of sidebars, quiffs, and sideburns. The first twenty or thirty minutes of appointments here are dedicated to "diagnostic," when stylists figure exactly what kind of cut is asked for.

Man-Mur Barber Shop

"Simply Great"

This straight-forward barber shop has a school of barbers who are experts in giving basic shaves and cuts. Customers will not find walls lined with hair products, hair conditioning treatments, or room for shampoo. The barbers are great at giving no-frills cuts like "flat tops" and "high and tights." Entering the shop is a bit like stepping back in time, when children got lollipops with a haircut and the blue and red of the barber shop sign was not a novelty.
