### Beachcomber Restaurant

"Location, Location, Location"

Located right on the sand of Crystal Cove, the Beachcomber operates in one of the historic cottages, and features seafood and mixed drinks. The quality of the food and the service is best proved by its popularity: the wait is often two hours, and limited reservations are accepted only on-line. However, a little planning can make the wait hassle free: make the Beachcomber reception the first stop at Crystal Cove, drop in your name and number, then go explore the beach until being called. Don't have 2 hours? Come for an early breakfast – sipping a cup of coffee on the sun deck while looking out at Santa Catalina Island. A perfect way to start your day.

## Crystal Cove Ruby's Shake Shack

"Shake Up the Romance"

Ruby's Shake Shack has been around since the 1940's. It is a little hidden from the road, but the crowd of vehicles parked in front makes it easily visible. As the name implies, the shack is about milkshakes, and it's originally famous for the date shake, which is so thick it makes a straw practically useless. The best part of the Shake Shack, though, is their outdoor benches. Although rustic, these benches on the bluff top of a secluded area provide the best spot for sunset watching.
