Pomona College Museum of Art

"Pomona Pride"

Located in the city of Claremont, the Pomona College Museum of Art is a teaching museum which features student artwork from the private liberal-arts college as well as pieces from more established artists. The exhibitions are definitely eclectic, some of the past ones have included exhibits on Chinese snuff bottles, stencil drawings, sculpture and paintings from writer-composer and Pomona alumnus John Cage. Needless to say the varied media is impressive. Moreover, the James Turrell Skyspace is an architectural wonder which focuses on the nature of light and how it is emitted. The lighting programs within the room are timed for sunrise and sunset in order to amplify the color in the space.
