Slim Jim's Liquor Store

"Islington's Secret Hideaway"

Step through the door and be transported to an American dive bar. From the bare brick walls, tatty diner-style booths, and 1950s-style leather stools to the 'Welcome to Las Vegas' sign, wild boar's heads, and rock and roll posters plastering the walls, details help create a certain laid-back atmosphere. Rock, blues, and underground music blast out of the old-school jukebox, and the drinking focus is on hard liquor. There's an extensive booze selection, with an emphasis on independently produced bourbon, whiskey, and rum. Draft and bottled beers are also available, along with classic cocktails making a great contrast to Upper Street's many swanky bars.
