Zortziko

"Quality and Originality in a Palace"

Zortziko is situated in a late 19th-century mansion. Zortziko has had great prestige since its founding but its proximity to the Guggenheim museum enhances it even further. The Zortziko restaurant is an institution in Bilbao. Imaginative and creative cooking is practiced here. It has three dining rooms, each with its own individual décor and vibe. One of them has a Versailles-like atmosphere, another is in the English style and the third is more contemporary. The specialties of this establishment will appeal to foodies who would like to experiment with the local flavors. Though the specialties vary seasonally, the culinary team is known for coming up with really innovative Basque cuisine. Their varied wine list is also worth a look.
