### Le Carlton

"Calm & Well Established"

This place has three stars and the office of tourism 'palm.' The reputation of Carlton hotels says it all, and this place certainly doesn't lower the standard. It is not the most luxurious of the chain but it keeps the style that reins in all the others. You may be surprised by where it is, as it is on a little discreet road between the Cordeliers and the place Bellecour, and seeing the liveliness of the roads around it, it is a significant pocket of calm. From here you only have to go to the unmissable Rue de République or the quays of the Rhône to be in the centre.
