Heywood Hotel

"Living King Size"

Intimate and chic, this East Austin hotel delights guests with its home-away-from-home vibe and modern amenities. The vibrant art scene synonymous with East Austin is clearly reflected in the designs of this boutique's seven-room property. From the long-leaf pinewood floors, and the artwork adorning the pastel walls, to the rooftop courtyard, every element intertwines perfectly to create a retro pied-à-terre in the heart of the art district. While each of the seven bedrooms is swathed in amenities like internet jukebox, coffee service and designer toiletries, the Queen Balcony on the second floor surpasses the others with its private balcony.
