### Page Museum at the La Brea Tar Pits

#### "Ice Age Fossils on Display"

The Page Museum shares the same location as the La Brea Tar Pits, so after you've witnessed the Pits which once entrapped Ice Age mammals, you can step inside and view the fossil remains. There are massive displays of mammoths, saber-toothed cats and an incredible collection of dire wolves. There are also exhibits of insects, plants and birds. Especially fascinating is the display of the skeletal remains of the La Brea Woman who is said to have lived about 9000 years ago. This is an extraordinary experience for the entire family.
