Kanella Grill

"Greek Odyssey"

Kanella Grill all but transports you to the Mediterranean. This restaurant has several Greek and Middle Eastern influences that are quite evident in their delicious dips of the day as well as other lovely dishes such as fisherman's stew and Kanella platter. Head chef Konstantinos Pitsillides has really put a lot of thought into the menu and makes use of quality ingredients infused with great flavors. One would expect just great mains from such a restaurant, but finish off with a pistachio creme brulee and that assumption will be broken. The service is friendly and helpful, and diners have a choice to sit inside or lounge in the outdoor area.
