Hiram M. Chittenden Locks

"Boat Locks And Salmon Ladder"

The Hiram M. Chittenden Locks, locally known as the Ballard Locks, is a unique and historic location in Seattle. Completed in 1917, this landmark connects the waters of Lake Washington, Lake Union and the Puget Sound. Watching the boats navigate the locks is interesting enough, but the location also hosts an unusual fish ladder that connects salt and freshwater for the local migrating Pacific Salmon. The grounds feature a visitors centre as well as the Carl S. English Jr. Botanical Gardens.

Take an in-depth tour of this historic ship, which is maintained in its original condition.
