CREMA

"Crema of Nashville"

CREMA is the ideal spot to have a coffee stop in Nashville. The beans are sourced directly from farmers and roasted to become a perfect cup of coffee. The baristas are well-crafted to retain the original and natural taste of the ingredients. Try their Cuban coffee or the Bourbon Sorgum Latte, if you are experimental you will love their coffee soda. You can also order food, including sandwiches, pastries and bagels. Try anything on the menu, you will definitely come back for more.

Ugly Mugs

"Great Vibe Great Coffee"

Ugly Mugs is a great place in East Nashville to drink a delicious, hot cup of coffee in a relaxed environment with a trendy vibe and free WiFi. Bring your laptop along and get some work done outside the office. The decor is simple with clean lines, great colors, and a comfortable local feel; something the nation chains don't have. Like most hot spots in East Nashville, the clients are mostly young business professionals looking for the perfect place to think alone or spend time with friends. In addition to the great vibe, the coffee and service at Ugly Mugs is also top notch.
