### The San Diego House

#### "International Coffees & Teas"

Located in San Diego's Historic Old Town, The San Diego House is housed within a Spanish adobe. They sell various coffees and teas, as well as various packages of whole bean coffees and loose leaf teas. Many of their coffees and teas are imported from all over the world, including premium altura beans grown in Mexico's highlands. They also offer a wide selection of pastries and old fashioned sodas, among which Sarsaparilla is a common item. - Erick Pettersen
