Rideau Canal

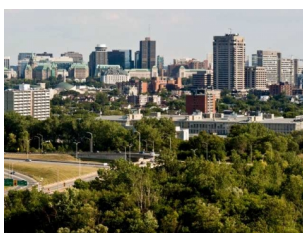

"A UNESCO World Heritage Site"

Built between 1827 and 1832 without the aid of powered machinery, the Rideau Canal is one of Ottawa's oldest landmarks. The canal runs from the Ottawa River near Parliament Hill to Hog's Back Falls on the south end of the city. During the summer months, a wide range of vessels, including tour boats, glide along the waterway. Come winter, the canal is transformed into the "World's Longest Skating Rink" and is a hub of activity during Ottawa's Winterlude festival.
