Preservation Hall

"Good Times & Good Jazz"

Established in the year 1961, Preservation Hall has become a haven for traditional jazz fans. Even if you are not a jazz lover, the unique old-school decor and the heady ambiance which is attributed to the stellar music performances will ensure you have a fantastic time here and may even become a fan before you leave. The interior of the club is sparse and does not feature much in the way of comfort, but comfort is easy to ignore with such great musical entertainment. They do not serve food or drinks here, however, feel free to bring along your own drinks to enjoy while you watch the show.
