### A Cappella Books

#### "Old & New Reads"

Visitors to this quiet book shop often rub shoulders with academia and local scholars. This high-minded, two-room shop is a haven for out-of-print titles and first editions, books on culture and the arts, notable modern fiction and literature, all offered at reasonable prices. Take some time to browse through the bargain assortment of paperbacks, too. If you do not see what you want, talk to the manager; the store is happy to special-order books, buy, sell or trade.

### Tall Tales Book Shop, Inc.

#### "Beloved Local Bookseller"

A favorite among Emory University students and Druid Hills residents alike, Tall Tales Book Shop is one of the few local book stores left in town. These specialists carry the wide-release titles as well as smaller market books that would only be available through special order elsewhere. The staff is always willing to help but never pushy, making Tall Tales a very enjoyable book-buying experience.
