### Ninja Akasaka

"Ninja Style Gourmet Cuisine"

Do not be fooled by the humble exterior upon arrival. Once inside Ninja Akasaka, wide-eyed visitors will be impressed with the creative and traditional interior that resembles an old Japanese village. Courteous ninjab-clad restaurant staff await to escort patrons through a journey of secret trap doors and small passages before entering the main area. Gourmet food makes this establishment more than just casual dining, so bring a large appetite and a big wallet. Magic shows are also offered in the evening by friendly ninjas who are willing to entertain onlookers with their ancient secrets. The funky and quirky establishment is located about 3-5 minutes from Akasaka Mitsuke Station.

### Robot Restaurant

"Singulamente Tokiota"

Con robots que pelean en bikini, decorados que no se pueden creer, disfraces loquisimos, luces coloridas y láseres por todos lados, Robot Restaurant es una experiencia que jamás olvidarán. La comida en sí consta de simples cajas bento, pero los shows nocturnos son los que atraen a la clientela. De atrás de una cortina salen unas carrozas muy decoradas con luces y que llevan mujeres disfrazadas. Incluso los baños ofrecen una sorpresa inesperada (como ser inodoros con estampas de flores). Jamás se aburrirán en Robot Restaurant, así que vengan a disfrutar del show.

### The Lockup

"Not Your Average Prison Food"

If you've committed the crime then you should do the time, but do see if you can do your time at Shibuya's The Lockup - the conditions may be questionable, but the grub is supposedly much better! With a sentence consisting of ghoulish decor, mini-labyrinths, handcuffs, strange menu items and drinks served in test tubes, beakers and syringes, this experience can be quite unsettling. Just another of Tokyo's famed themed restaurants, The Lockup has a great reputation for fear, fun, and good food. Great for groups or on a date, the Lockup always seems to be at full capacity, so make your reservations, mentally prepare yourself, and get ready for a jail term you'll most certainly remember! You've been warned!

## Uobei

### "Futuristic Dining Experience"

Uobei is a sushi restaurant in the Shibuya district which offers a dining experience like no other. Most of the process here is mechanized and high tech with sushi distributed through a conveyor belt. Simply pick out the dish you want using their multi-lingual touch-screen monitors and watch it zoom on to the table in front of you. Although the drinks are served by the staff, the novelty of the restaurant as well as the extremely pocket-friendly prices keep people coming back for more.
