### Riverside Spa

"Riverside Relaxation"

Riverside Spa is not so named simply because of its close proximity to the Bow River; the name is apt because of the serene setting it has managed to create, reminiscent of a relaxing riverside day. With facilities which are found at uber-luxurious resort spas, this is a spa that succeeds in presenting you with a thoroughly calming experience. The Raindrop Therapy Massage, in which therapeutic oils are applied on your body like little raindrops, is a wonderful way of relieving body tension. Body wraps like the Chocolate Bliss and Apricot Mango are almost good enough to eat! You could make a group booking and enjoy an invigorating day out

with friends or family.
