Satterfield's Restaurant

"Delicious American Cuisine"

The first thing that captures the diner's attention on entering Satterfield's Restaurant is the low lighting, casual ambience and classy decor. An open kitchen is further intriguing as one can see the dishes being meticulously prepared by the chef. The most loved dishes on the menu are the grilled items, especially the Mixed Grill, for which the patrons continue to return. The charm lies in the hands of the grill-master who succeeds in preparing each dish to perfection. The wine list also woos for attention with quite a few good labels. The prices are reasonable, adding to the pleasant experience here.
