Zoologischer Garten Basel

"Animal Planet"

Zoologischer Garten is one of the largest and most popular zoos in the world. With extensive areas and a large variety of animals and plants, this place stands as a pride of the city. Also on store are a range of tour programs which attract large crowds. A large share of visitors here is students from various educational institutes. The diversity of animal species and the quality facilities offered here makes this place distinct. Call ahead or check the website for more details.

Margarethenpark

"Tennis, Skateboarding & More"

A vast stretch of lush green grass and trees, Margarethenpark is a great place to seek peaceful respite from your daily life. The expansive park beckons with its walking paths, meadows and forests but it's really all about the skateboarding. The park's Kunsteisbahn is a popular venue for ice skating, skateboarding and other things of that nature. Make sure that you are bundled up in warm clothing as the weather can get really frosty.
