Kunstmuseum Basel

"Old Masters & Pop Art"

The foundations for the Kunstmuseum were laid when the city of Basel purchased the Amerbachsche Kabinett. This private collection, which boasted works by Holbein among others, was the world's first publicly owned one. Works by Witz, Schongauer, Cranach, Grünewald and others showcase renaissance's rich artistic traditions. 19th-century art is also featured here with Arnold Böcklin's work at the forefront. He did after all come from Basel. Marble steps take visitors to the museum's upper floors. 20th-century art by greats such as Leger, Braque and Picasso can be

found here as well as abstract expressionist and pop artworks. The building itself is almost cubic. Located near the Wettsteingbridge, it also houses a library and copper-plate engraving cabinet.
