Organic Wellness Center

"From the Earth"

At Organic Wellness Center, the salon remains true to its name because the professionals inside use natural, eco-friendly, paraben free products. Upon arrival, owner Danielle Avila-Wright and her staff confer with their clients in order to customize every service throughout the treatment. The salon specializes in skin treatments primarily, but the professionals still offer massage, detox services, infrared sauna and even ear coning. The prices are also quite reasonable, where most places may charge you double, here at Organic, you almost get 2-for-1.
