Red Rocks Park

"Rocky Adventures"

Set ablaze by the fervent glow of the sun, the scarlet magnetism of the Red Rocks park is compelling as it is humbling. Looming sentinels of gradient-red sandstone cliffs pierce the skies in this geological wonderland that lies nestled in the heart of the Rocky Mountains. Quirkily christened for their shape and form, some of the formations include the Seat of Pluto and the Cave of the Seven Ladders. However, one of the most winning features of this rose-tinted rock park that has received much exposure over the years, is the Red Rocks Amphitheater. This unique outdoor venue, a sweeping concert stage corralled by a fleet of towering boulders miraculously lends itself to the excellent acoustics and has previously hosted legends like the Beatles and John Denver.

Denver Art Museum

"Extensive Native American Art Collection"

This five-floor museum is wonderfully diverse and is at the forefront of offering new exhibits. In the past, it has featured impressionist artists as well as the work of Winslow Homer. This museum brags— and rightfully so— about housing one of the largest art collections between Kansas City and the West Coast. It's Native American art collection, which encompasses an entire floor, is not to be missed. In addition, 2006 heralded the dedication of a new wing of the museum. Designed by Daniel Libeskind, the Frederic C. Hamilton building adds to the already stunning architecture of the cityscape and has become a popular attraction for museum visitors.

Modeled after the venerated United States Capitol, the Colorado State Capitol is a neoclassical beauty constructed using Colorado white granite. Standing exactly one mile above sea level, the building meticulously epitomizes Colorado's Gold Rush through the Gold Leaf on its striking dome. Quintessential illustrations on the stained glass windows further immortalize the capitol's respect for the state it calls home. United States Mint - Denver

"Hall Of Coins"

What is now the United States Mint in Denver actually began as a humble company. In 1858, Clark, Gruber and Company started a private mint, making gold coins from the spoils of the Colorado gold rush in order to save on shipping the ore to the east coast. After minting over 500,000 dollars, the US Treasury officially bought the mint in 1863. Today, the mint is a popular tourist destination in Denver, lending insights into the stages and the entire process of currency-making. One of the oldest establishments in Colorado, the mint is touted to be one of the single largest producers of coins in the world. The mint is certainly an iconic repository of American currency, and all currency produced here has the denomination 'D' inscribed on it. Having been considerably mentioned in popular media, the Denver Mint is an indelible historic landmark of the country.
