Bodies - The Exhibition

"A Remarkable Educational Experience"

This exhibition offers a unique view of human anatomy, putting real human bodies and organs on display. Thanks to a process called polymer preservation, these specimens are able to retain their physical appearance while halting the decay process. During your visit, you'll learn about the skeletal, muscular, nervous, respiratory, digestive, and reproductive systems. The time it took to prepare the specimens on display ranges from one week to over a year.

The Mob Museum

"An Offer You Can't Refuse"

The Mob Museum is located in what used to be a courthouse. Built in 1933, it was one of the 14 courthouses in the nation to hold the Kefauver Committee hearings on organized crime. This makes it a perfect backdrop for The Mob Museum, an authentic view of the mob's impact on Las Vegas history. The Mob Museum presents the story from the perspective of both the organized crime syndicate and law enforcement. Visitors get to be part of the action through theater presentations and interactive environments. Visitors can shoot a simulated Tommy gun, listen to real FBI surveillance tapes, and take part in FBI weapons training. The museum can also be booked for private events.
