Monomoy Charters

"On The High Seas"

You didn't come to Nantucket to sit in the sun all day or to shop. No, you came because you want to catch one gigantic trophy fish for your wall. Monomoy Charters can help you achieve that dream. They offer the opportunity to fish from the deck of a 31 foot Bertram Sportfish, the perfect place to reel in that striper you've been dreaming of. E-mail Monomoy Charters for current rates.

Nantucket Historical Association (NHA)

"History Lives"

Keeping the island's history alive is the goal of the Nantucket Historical Association. Many of the museums and historical sites on Nantucket fall under the NHA's umbrella, which makes it an excellent place to start when taking a tour of the island. Purchase a membership to receive admission to all of the NHA's sites and immerse yourself in the island's past. Individual memberships provide far more benefits other than just museum entrance fees.

First Congregational Church & Old North Vestry

"Panoramic Views from Church Steeple"

There are 92 steps to the top of the tower of the First Congregational Church and though not air conditioned, visitors always seem to find the climb worth the effort. The windowed tower offers views in all directions; from the red and white stripes of Sankaty Lighthouse to the brick and cobblestone quaintness of Nantucket Town directly below. A collection of historic photographs and artifacts are on display on a mezzanine level, providing a nice, informative, resting stop on the climb up. A donation is requested.

Brant Point Light Station

"Icon at the Harbor Entrance"

One of the most photographed lighthouses in the United States, Brant Point Light Station is Nantucket Island's historic landmark. Though this iconic structure was established in 1746, it underwent numerous alterations through the ages, with its overall automation being one of the most notable events in its long and illustrious history. Armed with a powerful 5th-generation Fresnel lens, its signals have the capability of traveling distances up to 19 kilometers (12 miles). The monochromatic wooden tower that one sees today was built in the year 1901, and sits at Brant Point surveying all ferries, yachts and cruises from the mainland that pass its picturesque side on their way into the harbor.

Jetties Beach

"Beautiful Beach Right Near Town"

Jetties Beach is a refreshing water attraction with a bit of everything within walking distance from the Town. There are lifeguards, restrooms, and a concession stand with food and drinks and public phones. Being on the Nantucket Sound, the surf is mild, and many families come to enjoy the beauty and safety of this beach. There is also a playground and volleyball net. The NRTA shuttle runs a beach loop to Surfside and Jetties Beach from June 15 until Labor Day.

Surfside Beach

"Southside Beach with Surf"

Like Jetties Beach, Surfside Beach is considered a great family destination with all the fixings for a great beach day, including some decent surf. Lifeguards, restrooms, public phone, parking and a food stand are amongst the amenities found at Surfside. If you don't have your own car on the Island, you can take the Nantucket Regional Transit Authority (NRTA) shuttle bus from town or bike along the 3 mile Surfside Bike Path directly to the beach.
