Spindletop

"A Revolving Gem!"

High above the Hyatt Regency Houston lies the Spindletop, a revolving restaurant that affords dazzling views of the city. Rotating once in 45 minutes, this restaurant has many levels so that everyone is guaranteed a good view. Its features are so fascinating that they almost overshadow another important aspect-the food; however, the menu of seafood delicacies manages to hold its own. Entrées like the signature paella, seared snapper and roasted salmon are delicious, and when followed by confections like the signature chilled chocolate soufflé, make for a wonderful meal. Cocktails and wines are also on the menu.
