Pizza Pancetta

"Best Pizza Place"

This homegrown chain is best known for its thin crust pizzas and is a great place to stop by for a quick bite. For locals its the favorite take-away place in the neighborhood with fast service and good value for money. But dining in is also a good option, given you are not mindful of the decor or the ambiance; simple and elemental, the decor does not do much since all the value goes on the plate. And anyway tantalizingly cheesy pizzas will steal your attention from everything else. Give it a shot!
