Pikes Peak Alpine School

"Discover Your Wild Side"

This alpine school redefines the term of "higher" learning, and, unlike this bad pun, receives strong praise. Well-trained guides can teach you the skills and techniques needed to scale cliffs of ice, ski the back country and mountain climb. Rock climbing lessons, its most popular offering, usually take place on the rocks at Garden of the Gods and are open to all skill levels. Private lessons are given and all equipment is provided. Also popular are guided technical and non-technical Pikes Peak climbs.

Bike paths leading to the United States Air Force Academy are conveniently located right outside the shop's doors. Bike clothing, maps, and top-name road, mountain and BMX bikes are all for sale.
