UB City

"Marvel of UB City"

Belonging to the UB Group, UB City is probably one of the biggest landmarks of Bengaluru in present times. This sprawling and urbanized property consist of offices, residential spaces, service apartments and a mall. The towers are namely UB Tower, Concorde, Canberra and Comet. Parking is taken care of completely as there are different levels of parking available to accommodate the heavy car traffic, a problem that the city knows all too well. The property also has been built keeping the green nature of the city in mind, and the architects have done a commendable job with the landscaped gardens that provide much respite to tired eyes. UB City is one of the most expensive spaces in the city, given its prime location but once you enter it, the world seems beautiful and fresh again.
