Exchange LA

"Stock Exchange Building Remodeled"

The Los Angeles Stock Exchange building was re-modeled and now holds rocking nightclubs and upscale bars. This nightclub gets its name from the building where it's housed. It is hard to find foot space here if you decide to haunt this place later in the evening, as it's always crowded. Top of the line sound systems and glaring lights make for a cool nightclub atmosphere. Live music and the young, hip crowd are just energetic enough to set you tapping your feet.
