### Max Lager's Wood-Fired Grill & Brewery

"Great for Relaxed Celebrations"

This expansive restaurant is perfect for large groups and is placed right between Downtown and Midtown. In this renovated warehouse setting, a big bar dominates one side of the main floor, while smaller eating spaces are created by separating tables and booths. Upstairs is a pool area and a smaller bar, and the large deck offers outdoor eating options. There are ribs, steaks, seafood, pasta, wood-fired pizza, and even tasty vegetarian options. Don't forget to sample one of Max's locally created specialty beers as well.

### SweetWater Brewing Company

"Local Brewmasters"

With a relentless pursuit of flavor and a deep respect for nature, SweetWater has blossomed into an iconic establishment, offering a truly unique experience for beer enthusiasts and casual drinkers alike. It is interesting to note that approximately six different kinds of beer are brewed under the Sweetwater label at any given time, depending on the season and the progress of new recipes. The company's impressive brewing and bottling facility also offers tours. While most people enjoy the interesting and informative tour, the most popular stop is the last, where guests are invited to partake in a sampling of recent batches.
